TECHNOLOGY MAKING AN IMPACT

Determining where to start when it comes to a digital transformation can be difficult. For Sapulpa Public Schools, they faced a challenge like many other small districts when it comes to technology integration. They had a lot of moving parts: LMS platform integration, Google® integration, providing SSO to access content, etc. Through a partnership with the International Center for Leadership in Education (ICLE) and our **HMH Technical Services** team, Sapulpa determined their needs did not only begin and end with technology. The district wanted to implement and create ongoing sustainability, but with a small number of district personnel, they knew they needed support to make their technology integration a reality.

Oklahoma

Sapulpa Public Schools

BY THE NUMBERS
4,068 Students
1 High School
1 Junior High School
1 Middle School
4 Elementary Schools
1 Alternative School

TECHNOLOGY PROFILE
1:1 District
LMS: Buzz
Chromebooks
SSO: Google Accounts
SIS: PowerSchool®
Data Warehouse: edFusion™

It's the Little Things That Make a Difference

Implementing a 1:1 strategy is cumbersome for district technicians. Having a partner to troubleshoot and share best practices has provided a scaffold of support for the Sapulpa technical staff. The partnership has extended to securing Chromebooks for testing, building an instructional and staff development portal, automating PowerSchool rostering, and configuring SSO for Google. Having an HMH Tech Advisor on call has contributed to the success of the Sapulpa 1:1 rollout strategy.

THE CHALLENGE
Stand up a digital curriculum with HMH-provided content, LMS integration, 1:1 device rollout, data warehouse, and rostering support.

THE SOLUTION
HMH® Program Services
ICLE Digital Leadership & Learning
Rostering and SSO
Licensing
Data Services
Chromebook™ Configuration
In-Classroom Coaching
Best Practices

THE RESULTS
Sapulpa is now utilizing their district LMS as a content repository for administrators, teachers, and students. The LMS is also being utilized as a professional development platform for staff development.
